PRODUCT & PRICING MANUAL

Experience the amazing!

Simply amazing!

How amazing can electrical switches, lights, fans, and wires be? Unbelievably so, if you look at the Goldmedal range of products. First of all, they are all so fashionable to look at - from their sleek lines to their gorgeous colours and finishes, these products are a fashionista's dream come true. They can truly elevate any space with their stunning looks.

But you don't have to go by their looks alone. Consider their functionality and you'll appreciate why they are so amazing! Whether it is their home automation products or their fans or their LED lights or even simple products like switches and modular plates; every product has a unique design that has a purpose to it. Most of them are designed with Indian conditions, needs, and tastes in mind. Every product is thus a wonderful blend of style and functionality.

As someone who appreciates great style and loves incorporating such products in their daily lifestyle, I'm absolutely thrilled to be associated with the Goldmedal brand. Their products complement my sense of fashion and it's exciting for me to showcase these products to you! I hope you'll find them equally amazing!

WEGA
Modular Plates

A visual symphony that elevates our existence.

Colours influence our everyday lives in ways we may not always realize. They surround us in every aspect of our lives, painting the world with a vibrant palette that evokes emotions, ignites imagination, and shapes our perceptions. It plays a pivotal role in human expressions and creations. They awaken a sense of wonder, reminding us of the awe-inspiring wonders that surround us. Therefore, let us fill our lives with the beauty of colours and create a life adorned with shades that make each moment more meaningful.

Endless possibilities for modern living

Nixon represents a new era in stylish living. Crafted in contemporary styles with minimalistic profiles in classical as well as revolutionary shades, Nixon introduces a variety of high quality lifestyle products that will change the way you look at modular switches and functions. All Nixon products are compatible with a variety of Goldmedal plates, including the Wega, making the possibilities for form, finish and colours, simply endless.

Polybutylene Terephthalate (PBT) Switches

Switches are superior quality electrical devices that are easy on the eye and extremely delightful to use. Making the smooth user experience possible is a combination of components that are precisely crafted from high-quality materials. The terminal contacts are supported by a casing of polybutylene terephthalate (PBT) within a PC base. With a high melting point above 200 degree Celsius, the PBT casing insulates every part of the switch from any electrical or thermal leakages. The thoughtful construction of the Goldmedal switches thus ensures greater reliability and increased durability over its long years of service.

Smart living made
smarter.

Presenting the next step in smart living. The i-Touch WiFi panels are the latest devices in Goldmedal's family of automation switches. Sleek and stylish in appearance, these backlit LED WiFi panels have a host of functions including switches, fan regulators, dimmers, USB sockets, and international sockets. Apart from manual operations, you can also control these panels using the RF Remote control and voice commands. You can even operate these panels from anywhere in the world using the i-World mobile app. There's no gateway required - the technology is built into the device. A complete system by itself, the module can be installed directly into a regular junction without the need for any new wiring.

Glassio Black Glossy Plate with Digital Silver I-touch Bellpush

GLASSIO

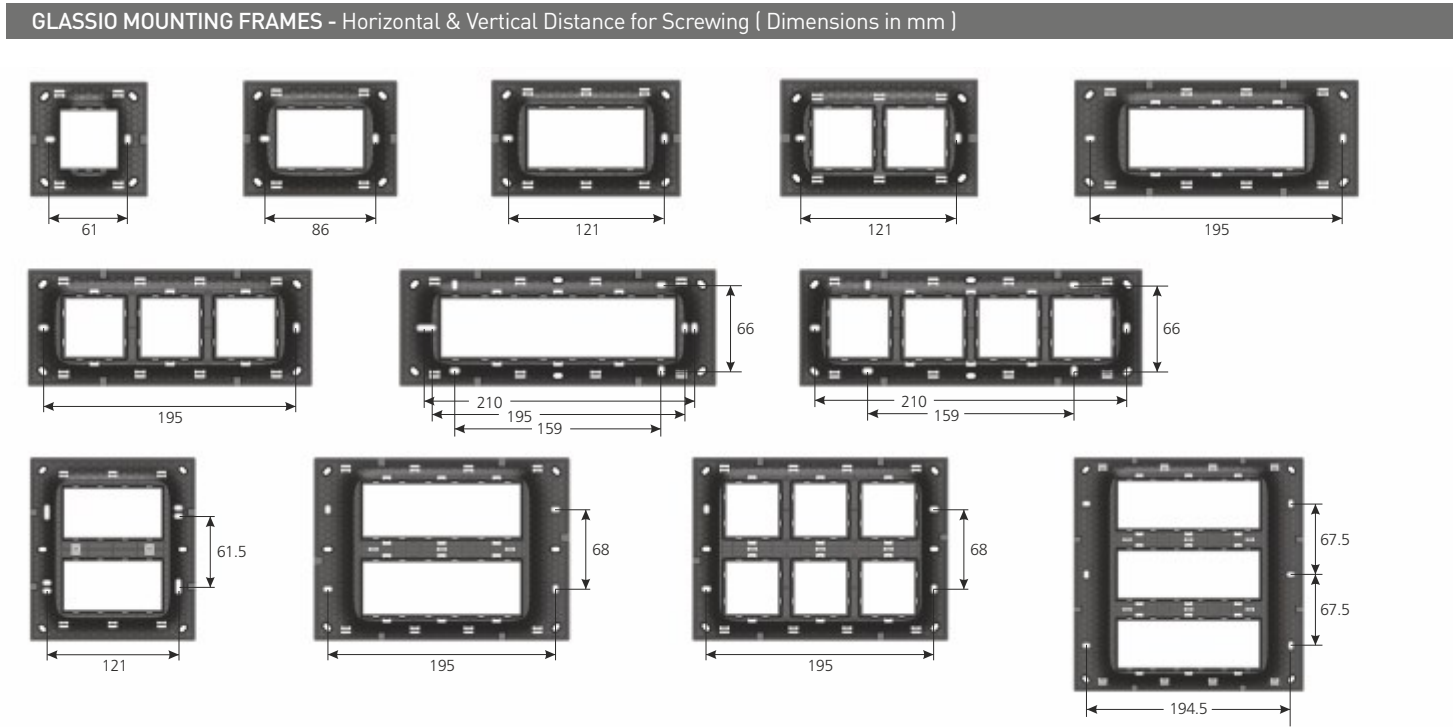

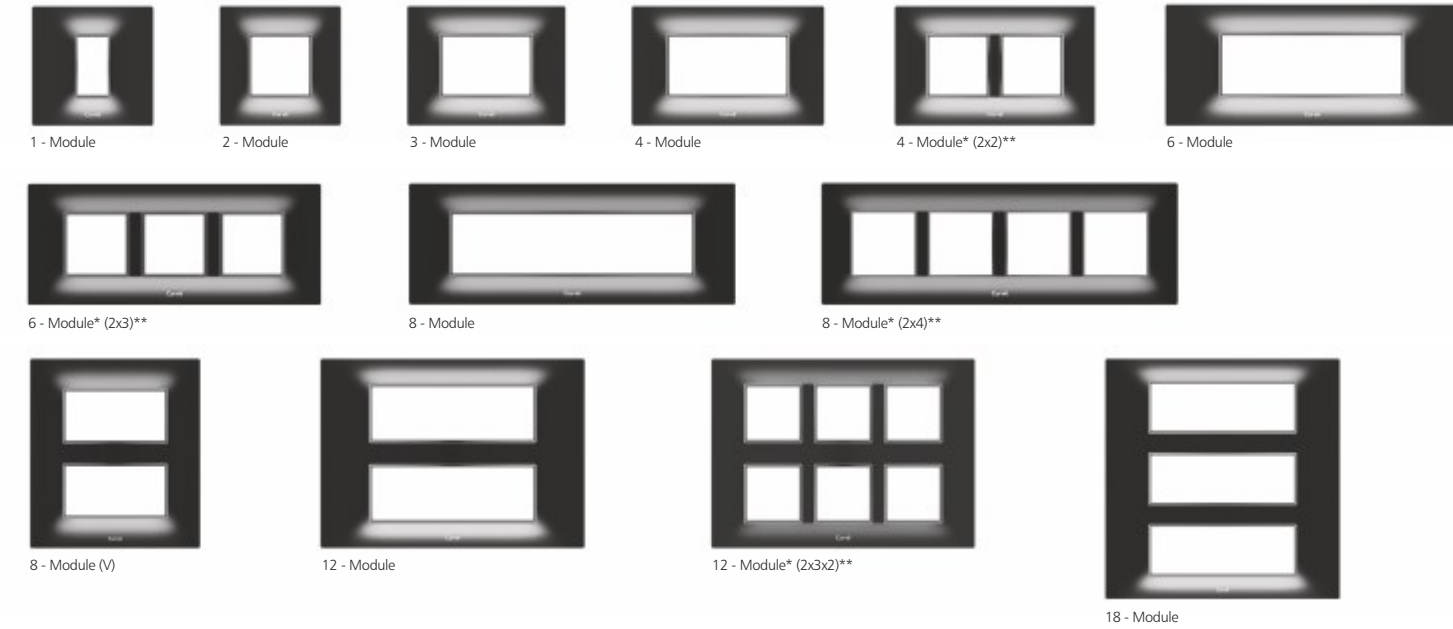

The Glassio is without doubt a classical beauty – exhibiting a smooth, glossy frontage, with soft, rounded edges and a demeanour that’s sophisticated yet warm and welcoming. The elegantly flared corners reflect and absorb light in a manner that adds depth and character to the cover plate. This interplay of light and shadow also creates a sinuous effect that makes Glassio the definitive artefact on your wall.

Air

Flat. Flawless. Flamboyant.

Arcos

Add a new dimension to your interiors

The Arcos switch is the perfect blend of sophistication and minimalism. The subtly contoured body and the arched edges of the Arcos is what sets it apart from its contemporaries. It makes a distinctive style statement while adhering to Goldmedal's vision of crafting extraordinary, timeless, and truly amazing switches.

Artio

Simple, minimalistic and completely flat - at OFF position

Inspired by the immaculate perfection of a circle, the new Artio range of switches are beautiful yet minimalistic in appearance. The Artio switch range consists of either completely circular or a combination of straight and semi-circular switches embedded within a square frame. Once installed, these switches form perfectly flat, flawless, circles.

Aero

Completely flat - at OFF position

The Aero redefines flat switches. Styled to remain absolutely flush with the cover plate, the Aero emphasizes the minimalistic design of the Air range. Manufactured using the very best in raw materials and processes, the Aero is both functionally and aesthetically a class apart!

Aura

Perfect crisp lines that define the Air range

The Aura has a forceful presence that commands attention. With its perfect, crisp lines and distinct shape, the Aura highlights the precision and style that defines the Air range. The Aura is the perfect choice for interiors that are practical yet modern.

Arc

A symbol of elegant minimalism

The Arc switches by Air symbolizes minimalistic elegance. Easy on the eye as well as a pleasure to use, the Arc can be the perfect accessory in stylish homes with graceful settings. Crafted to perfection using the very best in technology and materials, the Arc adds a new dimension to your interiors.

Goldmedal
SWITCH TO THE AMAZING

Distinctly flat, slim and minimal

The AIR range of modular switches and systems breaks the mold with its classy, minimalistic, uniquely flat, and slim appearance. An example of meticulous craftsmanship, careful detailing, and unmatched excellence, the AIR range makes other ordinary switch ranges appear unwieldy and extravagant. Absolutely light and modern, the AIR range marks a new beginning in the world of standard fittings. Slim, stylish, minimal – the AIR devices shout quality, elegance, and finesse through every inch of their presence.

Air A7 Absolute White Plate with Carbon Grey Artio Switches

ARTiO

The Artio is a delightfully simple and minimalistic expression of the Air range. Embodying reductionism and refinement, which are hallmarks of a sleek, modern, and urbane lifestyle, the Artio makes a contemporary statement in every sense. Embedded within a square frame, the Artio switches can be installed as a single switch or as a combination of multiple switches to form a complete circle. The elegance, harmony and compositional unity that Artio represents gives it a truly timeless appeal.

Air A5 Absolute White Plate with Carbon Grey Arcos Switches

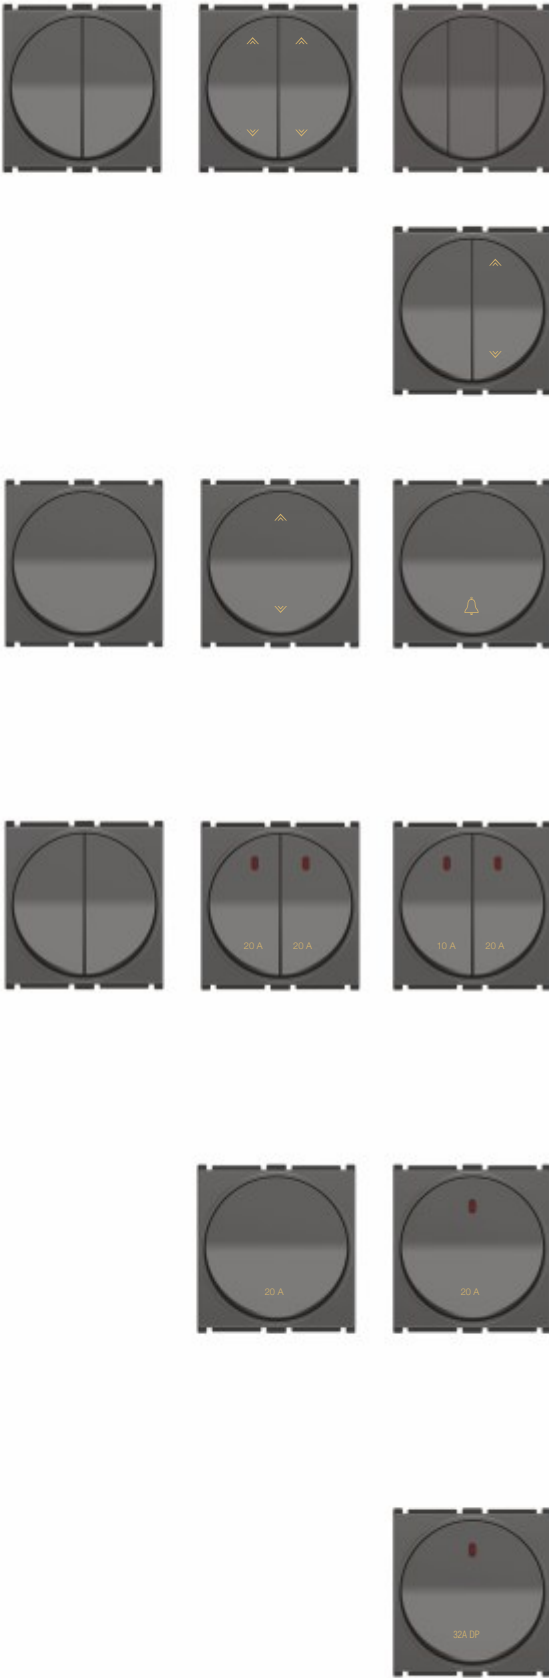

ARCOS

The Arcos switch is the perfect blend of sophistication and minimalism, thus encapsulating the signature design of the Air modular range. Like its contemporary Artio, the Arcos too fits seamlessly within the slot of the Air cover plates. The subtly contoured body and the arched edges of the Arcos separates it from the more austere shape of the Artio. Perfectly proportioned, the Arcos makes a distinctive style statement while adhering to Goldmedal's vision of crafting extraordinary, timeless, and truly amazing switches.

FLUSH MOUNTING METAL GANG BOX

Compact, resilient and sturdy, the Goldmedal metal gang boxes are the ideal enclosures for your switchboard accessories. Available in galvanised and 304 grade stainless steel options, these metal gang boxes securely hold all electrical wires and components in place without any additional support. While the galvanised metal boxes are corrosion-resistant, the stainless steel metal boxes are rust-free, easy to clean, and extremely strong and durable. With their simple yet robust design, these mounting boxes play a passive but invaluable role in ensuring that your electrical devices perform to their optimum without any interruption!

Air Double Door Plastic (DB)
with Transparent Textured Finish Door Flap

Technical Features

- Conforms to IS 8623-1&3, IEC 61439-1&3 standards.
- Suitable for Surface & flush mounting.
- Dust proof IP40 & IK07 compliant.
- Manufactured using Main Body - CRCA Sheet, Door - ABS & Door Flap - PC
- Main Body Fully powder coated with 7 tank pre-treatment process.
- Ample space provided for proper placement of neutral & earth wires.

Safe, reliable
and efficient.

AirMCB

Compared to a traditional fuse, MCBs are designed to operate accurately under both overloading and short circuit conditions. Unlike a fuse, MCBs can also be reset quickly after they trips. RCCBs play an equally important role by automatically detecting and disconnecting the circuit whenever a fault occurs or the current exceeds the rated sensitivity. The MCBs and RCCBs from Goldmedal are housed within a plastic moulding that is made of flame-retardant, high strength plastic. The quality of the material used and its design ensures that these devices are highly durable and appear new in spite of years of use.

Maximum safety,
seamless power control.

AirRCCB | CHANGEOVER

Rapidly cuts off power during abnormal currents, preventing electric shock and enhancing home safety.

AirecoDB

The AirEcoDB distribution boards are sleek, stylish and elegant in appearance. Its appearance reflects the supremely minimalistic look of the AIR Range to which it belongs. Its crisp, clean lines accentuate the powder-coated, superior finish and durability of the product. Suitable for flush and wall mounting, the AIR DBs offer ample space for easy installation of MCBs, RCCBs and for all the wiring required. The AIR Distribution Board also complies with all the standard requirements and is water and weather resistant so that it retains its international look even after years of use.

IT'S A SWITCH. IT'S ALSO A REMOTE!

The GMesh remote controller is a switch-cum-remote control. You can fix it to a wall or a table and thus use it as a switch (wirelessly), or you can take it with you and use it as a remote control.

Goldmedal's GMesh technology gives you the comfort of a wired automation system without changing the existing wiring in your home. From switching to dimming to controlling fans and curtains, to RGB lighting control to tunable lighting control, everything is possible with GMesh.. Add the Bluetooth based devices to your existing network and its done. You do not need a Wi-Fi or an Internet connection to control your room functions. Just switch on Bluetooth on your mobile phone and connect to your home network!

Bluetooth Controller

G-Mesh products can handle DALI, Tunable White, RGB & RGB-W Control, Human Centric Lighting Control and is also ready for all future upgrades. While this may sound complex, it will surprise you to know that G-Mesh commissioning and set up is so simple that even a child can do it! Yes, even changing a lighting scenario is a simple task.

A2D0001 is a BLE-enabled 2 channel 0-10V or DALI controller. It has a universal 100-277V AC input voltage range and can control 2 separate analog channels, 1 Tunable White channel, or one Dali channel.

PWM0004 is a BLE-enabled four-channel PWM dimmer for constant voltage LED loads, such as LED strips and constant voltage LED modules. The same device can be used for both 12 and 24V DC LED strips. Separate drivers are not required for LED strip or RGB Strip dimming.

REL0004 is a BLE enabled 4 channel relay with 4 separate inputs to control BLE device on the network. The 4 inputs can be freely programmed to do operations like Dimming, curtains, master functions etc. The device can be used for curtain control also.

DCS0001 is a BLE-enabled DALI controller. It does not have its own power supply. Instead, it is powered directly from a DALI bus. DCS0001 can be used with a DALI sensor for presence detection or daylight harvesting or it can be used for controlling Human Centric Lighting (HCL).

TED0001 is a BLE-enabled trailing-edge dimmer for operation of incandescent lamps, dimmable LED lamps, and dimmable LED control gear. It can be installed in the ceiling, inside a luminaire, or into a ceiling outlet box.

ASD0001 is a BLE-control unit for LED drivers with 0-10V, 1-10V, or DALI dimming interface. The control output can be configured either as analogue 0-10V (and 1-10V) or as a digital standalone DALI control interface.

Solutions to all your automation needs under one roof!

If you are planning to build a new home or a commercial building, you are bound to face a number of technical and financial challenges. These challenges have only grown with time. At Goldmedal, we present you a one-stop, complete home automation solution, under one roof.

OUR CLIENTELE

63 GMA avenue

our *amazing* headquarters

63 GMA - Goldmedal Corporate Head Office

Introducing Goldmedal's brand new corporate headquarters, a soaring symbol of innovation and productivity. Located at the heart of Mumbai's suburbs on S. V. Road, Goregaon West, this new business center of the company is well connected to the Western Express Highway, railway station, bus stops, and taxi stands. Home to the company's management and staff, 63 GMA has been designed with a captivating layered structure that harmoniously blends together to create a visually striking and architecturally pleasing building. Its innovative design encourages the entire Goldmedal workforce to work as a team toward a common mission.

The 31-storeyed glass façade headquarters has been designed to inspire creativity, foster collaboration, and drive productivity paving the way to a world of limitless possibilities. From open-plan areas to private offices, a sky garden, private decks, and spacious meeting rooms, this center offers versatile spaces that help teams to perform efficiently, making it a perfect place for work and play. For years, Goldmedal has pioneered the electrical industry by introducing cutting-edge technology and innovative products. The new headquarters of Goldmedal, equipped with state-of-the-art facilities and amenities, will continue to lead the company, ensuring a superior work environment that reflects the company's progress and success.

With 63 GMA, Goldmedal is all set to welcome a new era of innovation that will help unlock immense potential, achieve goals, and thrive in an environment that inspires greatness.
